

Huawei Ascend G610 Digitizer Replacement

Replacing the touchscreen in case of failure or breakage glass

Written By: Smilzo

Step 1 — Digitizer

- touch screen with broken glass

Step 2

- Remove back cover

Step 3

- Remove the battery

Step 4

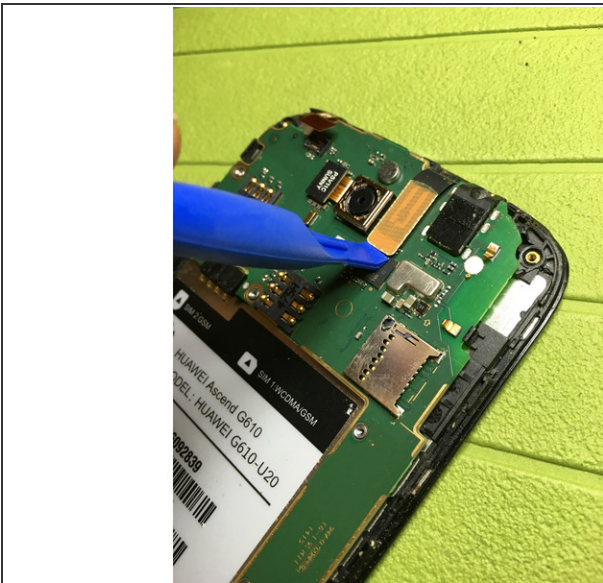

- With the help of a Phillips screwdriver to remove the 9 screws that attach the body sides, one of which is covered by an adhesive
- Remove the shorter screw that secures the body centrally, close to the SIM card compartment

Step 5

- With the help of a thin tool unhook the joints between the rear frame and shell around the device
- Remove rear bodywork

Step 6

- Unhook touch screen connector

Step 7

- If the glass is broken apply scotch to avoid injury
- with the help of a hot air dryer to heat the edges of the glass
- with a thin tool start scalars the touchscreen throughout the profile
- Attention to flat touch screen at the top left if we do not intend to break it (in case of any replacement display)

Step 8

- Complete removal of the touch screen to proceed with the cleaning of the residual adhesive
- Apply new adhesive and the new touch screen
- To reassemble the device Follow the steps in reverse order

Per rimontare il dispositivo, segui queste istruzioni in ordine inverso.
